Greetings WRF 4718 Project Participants,

As I mentioned during our last call, one of the tasks for the WRF #4718 project is to have our water/wastewater utilities complete a questionnaire to improve our understanding on the drivers, current practice, benefits and barriers related to battery energy storage projects.
We would greatly appreciate your time in completing this questionnaire by **April 27, 2018** (it should take about 20 minutes). The questionnaire can be accessed through the following link:

https://www.surveymonkey.com/r/WRF4718-BatteryStorage

The questionnaire is also attached here for your reference in case you would like to review it in advance.
Thank you for your time and assistance. Please do not hesitate to contact me if you have any questions.

Best Regards,
Carla
